- Size: 0KB
- Modified: 8/8/2025

Scraped Web Content (6)

ECO_Law_Blog.md

- Path: `./sources/article/ECO_Law_Blog.md`
- Size: 18KB

IDDRI_Policy_Brief_April_2025.md

- Path: `./sources/article/IDDRI_Policy_Brief_April_2025.md`
- Size: 5KB

Inside_EU_Life_Sciences.md

- Path: `./sources/article/Inside_EU_Life_Sciences.md`
- Size: 15KB

NCLOS_Blog.md

- Path: `./sources/article/NCLOS_Blog.md`
- Size: 17KB

Opinio_Juris.md

- Path: `./sources/article/Opinio_Juris.md`
- Size: 18KB

urls-report.md

- Path: `./sources/urls-report.md`
- Size: 47KB

Original URL Categories

- **academic**: 75 URLs
- **article**: 79 URLs

- **doi**: 4 URLs
- **official**: 43 URLs
- **pdf**: 6 URLs
- **ssrn**: 15 URLs

Next Steps

1. **PDF Conversion**: Convert PDFs to markdown for better integration
2. **DOI Resolution**: Resolve academic DOIs to full papers
3. **Quality Check**: Review scraped content for completeness
4. **Integration**: Use downloaded content as context for writing

How to Use These Sources

The downloaded sources are organized by type in the `sources/` directory:

- `sources/pdf/` – Downloaded PDF documents
- `sources/article/` – Scraped web articles (markdown format)
- `sources/academic/` – Academic papers and resources
- `sources/official/` – Official UN and government documents

You can now reference these local files when writing your research, ensuring all source material is available for context without requiring internet access during the writing phase.
